

Sikeston R-6 School District

Request for Proposals (RFP)

E-Rate Funding Year 2025

Senior High Network Cabinet Replacement Project

Introduction

The Sikeston R-6 School District is seeking proposals from qualified vendors to enhance the network infrastructure at Sikeston Senior High School. This RFP focuses on replacing and securing network cabinets. The intent of this RFP is to provide potential vendors with sufficient information to submit a competitive and acceptable response. The project is contingent upon approval by the Board of Education and USAC.

Scope of Work

- Removal of the existing network cabinets at Senior High
- Installation of new, space-efficient cabinets.
- Transfer of all existing wiring and equipment into the new cabinets.
- Installation, testing, and verification to ensure the network is fully functional upon project completion.

Vendors may propose creative solutions to address specific needs and constraints at Senior High ensuring optimal functionality and scalability.

Current Network Information

Current status at Sikeston Senior High:

- Four network IDF locations that need room for expansion and security.
- Emphasis on improving security and accommodating future network expansion.

Requirements

- Replacement of the existing network cabinets with new, space-efficient models.
- Transfer of existing wiring and equipment into the new cabinets.
- Ensuring all work is completed to industry standards for safety and functionality.
- Testing and verification that all equipment is operational and fully functional upon project completion, ensuring the network performs as expected and meets district standards.

Proposal Requirements

- Vendor information, including SPIN and E-Rate compliance details.
- A detailed description of the proposed solution for Sikeston Senior High
- A timeline for project completion.
- Itemized pricing, separating E-Rate eligible and ineligible costs.
- References from similar projects.
